THE WAY THE MONEY GOES.

BY JOHN G. SAXE.

How goes the money? Well,
I'm sure it isn't hard to tell;
It goes for rents and water rates,
For bread and butter, coal and grates,
Hats, caps and carpets, hoops and hose;
And that's the way the money goes.

How goes the money? Nay,
Don't everybody know the way?
It goes for bonnets, coats and capes,
Silks, satins, muslins, velvets, crapes,
Shawls, ribbons, furs, furbelows,
And that's the way the money goes.

How goes the money? Sure,
I wish the ways was somewhat fewer!
It goes for wages, taxes, debts;
It goes for presents, goes for bets,
For paints, pomade and eau de rose;
And that's the way the money goes.

How goes the money? Now
I've scarce begun to mention how;
It goes for feathers, laces, rings,
Toys, dolls and other baby things,
Whips, whistles, candies, belts and bows;
And that's the way the money goes.

How goes the money? Come,
I know it does not go for rum;
It goes for school and Sabbath chimes,
It goes for charity sometimes,
For missions and such things as those,
And that's the way the money goes.

How goes the money? There,
I'm out of patience, I declare!
It goes for plays and diamond pins,
For public alms and private sins,
For hollow shams and silly shows,
And that's the way the money goes.

THE PHILOSOPHY OF RAIN.—To understand the philosophy of this beautiful and often sublime phenomenon, so often witnessed since the creation of the world, and so essential to the very existence of plants and animals, a few facts derived from observation and a long train of experiments must be remembered:

1. Were the atmosphere everywhere, at all times, of a uniform temperature, we should never have rain, or hail, or snow. The water absorbed by it in evaporation from the sea and the earth's surface would descend in an imperceptible vapor, or cease to be absorbed by the air when it was once fully saturated.

2. The absorbing power of the atmosphere, and consequently its capacity to retain humidity, is proportionably greater in warm than in cold air.

3. The air near the surface of the earth is warmer than it is in the region of the clouds. The higher we ascend from the earth the colder do we find the atmosphere. Hence the perpetual snow on very high mountains in the hottest climate.

Now, when from continued evaporation the air is highly saturated with vapor, though it be invisible and the sky cloudless, if its temperature is suddenly reduced by cold currents descending from above, or rushing from a higher to a lower latitude, or by the motion of saturated air to a cooler latitude, its capacity to retain moisture is diminished, clouds are formed, and the result is rain. Air condenses as it cools, and, like a sponge filled with water and compressed, pours out the water which its diminished capacity cannot hold. How singular, yet how simple the philosophy of rain! What but Omniscience could have devised such an admirable arrangement for watering the earth.

ECCENTRIC DIVINE.—The Rev. Zeb. Twitchel was the most noted Methodist preacher in Vermont for shrewd and laughable sayings. In the pulpit he maintained a suitable gravity, manner and expression, but out of the pulpit he overflowed with fun. Occasionally he would, if emergency seemed to require, introduce something queer in a sermon for the sake of arousing the flagging attention of his hearers.—Seeing that his audience was getting sleepy, he paused in his discourse, and discoursed as follows:

"Brethren, you haven't any idea of the sufferings of our missionaries in the new settlements on account of the mosquitoes. The mosquitoes in some of those regions are enormous. A great many of them would weigh a pound, and they will get on logs and bark when the missionaries are going along."

By this time, all ears were open, and he proceeded to finish his discourse.

The next day one of his hearers called him to account for telling lies in the pulpit.

"There never was a musquito that weighed a pound," he said.

"But I didn't say one of them would weigh a pound; I said a great many, and I think a million of them would."

"But you said they barked at the missionaries."

"No, no, brother; I said they would get on logs and bark."

A GOOD COW.—Daniel O'Connell once saved a cow thief from hanging, though the fellow was condemned to transportation. He afterwards returned to Ireland and made himself known to O'Connell, and in requital for his services as counsel, said he would impart a valuable secret: "If your honor wants to steal a cow, go on a dark, rainy night and take a cow that stands out in the field, and sure ye'll get a good one. The weakly ones, yer honor, always shelter under the hedge if the weather is bad."

"Sure," said Patrick, rubbing his head with delight at the prospect of a present from his employer, "I always mane to do my duty." "I believe you," replied his employer, "and therefore, I shall make you a present of all you have stolen from me during the year." "Thank your honor," replied Pat; "and may all your friends and acquaintances trate you as liberally!"

A WINDFALL.—A little girl, niece of Captain Childs, is reported to have fallen heir to a fortune of a million and a half of dollars. This little heiress resides in Portsmouth, Va., and is thus suddenly enriched by the death of a relative in England. She is but seven or eight years of age.

$10 Reward.

THE ABOVE REWARD WILL BE GIVEN FOR the apprehension of two Colored boys named Fed, and Eldridge, who absconded from me about Jan. 1st, 1867. They are about fifteen years old, and very black, said boys were raised by me and have been regularly bound to me until 21 years of age, by the agent of the "Freedmen's Bureau" Raleigh, N. C.

All persons are forwarned from employing or harboring them, under the penalty of the Law. They were raised in Harnett Co, and may be lurking about that County or Raleigh. Any information of their whereabouts will be thankfully, received and liberally rewarded by the undersigned.

Half note and half cash for premium and privilege to travel or reside in any part of the United States.

OBJECTION 1.

I'M TOO POOR; I CAN'T AFFORD IT.

ANSWER.

If you are too poor to save less than half a dollar per week, at from 30 to 35 years of age, or proportionately at other ages, and find it so difficult to do so—should you be taken away by death, how bitterly poverty will strike home to you, widow and children, or those dependent on you! Is it not worth a struggle to avoid this, and give them at least $1,000 by paying so small a sum? *It costs just $2,00 per month to insure $1,000 at the age of 32 years.*

OBJECTION 2.

I've talked to several of my friends, and they all advise me to have nothing to do with it.

ANSWER.

Will your friends undertake to provide for those you leave behind, in case you do not live long enough to save money? Ask them, and be guided by their answer.

OBJECTION 3.

I can't make up my mind: call again.

ANSWER.

Your other objections have been answered. I appeal to your own common sense to answer this for yourself, aided by

THREE PRACTICAL REFLECTIONS.

FIRST.—Nothing is so uncertain as Life.

SECOND.—No provision is perfect that is contingent upon the duration of your Life, which is not immediate.

THIRD.—The only immediate provision is that provided by Life Insurance.

IMPORTANT SALE.

I WILL SELL AT PUBLIC AUCTION IN THE Town of Henderson, on Tuesday the 12th. February next, valuable

Manufacturing and Saw Mills;

situated within one mile of the Town of Henderson, on a never failing stream of water, which affords sufficient power to attach a Cotton Factory, if purchaser should so desire. These Mills are new, and in excellent working order; they having been built last year. Have been in successful operation for the past five months, during which time the Saw Mill alone has yielded an income of about five thousand dollars.

I will sell with Mill, one hundred and fifty acres of heavy timbered land, said timber of superior quality. Also the timber off of two hundred and fifty acres of land, all of which is adjoining the Mill property.

Will be sold at the same time, two good yoke of Oxen, one Log Cart, a splendid pair of Mules, one two-horse Wagon and Harness, a superior lot of Hogs, of improved stock and many other articles too numerous to mention, including one nett Blacksmith tools.

Also, at the same time and place, two very valuable

Houses and Lots,

situated in the Town of Henderson.

I feel no hesitancy in pronouncing the above property, as valuable as any of the kind in the State.—Capitalists desirous of investing in property that will pay, can do no better than examine this property and buy.

The Fall Session of this Institution closed 23rd. day of December. The Spring Session opened the 1st. Wednesday in January, and will continue 20 weeks.

The success of this school has been without a parallel. A new building has just been completed, by which a large additional number can be accommodated. We are determined to make our pupils as comfortable as they can be made anywhere, and to afford them all the advantage for a thorough and extensive education, that can be found at any First class Female College, North or south.

The location is a most delightful one. The Mineral Water is too well known to the whole country to need a remark. Even invalid young ladies may secure a thorough education, and at the same time the restoration of their health. Reference is made to every intelligent Physician in the State, as well as to the hundreds who have found relief here.

The young ladies all worship in the College Chapel, and hence no extra clothing is required. *In the single item of dress parents can save 25 per cent. of the entire expense incurred by sending to Boarding Schools located in cities or villages.* This Institution is certainly one of the cheapest and most easy of access in the Southern States. Besides, it offers the most superior advantages in every respect.

A PROPOSITION.

IN WHICH YOU ARE INTERESTED.

I PROPOSE for the protection of the citizens of Raleigh and surrounding country, against the imposition of those so-called Cost Stores, to furnish each and every person, the New York Cost of any goods they may want to buy; by this means they can tell whether they are buying goods at Cost or paying a profit on them.

Call before going to any of those Cost Stores so-called, and let me give you a memorandum of Cost prices.

Most of my large stock I will sell at cost but I have goods that I will not sell in that way, and neither will those merchants who make such a flourish about selling at Cost.

No merchant in this place has purchased his Goods any cheaper than I bought mine. Any assertion to the contrary is *false*; and I will guarantee to sell Goods as low as any Cost House. All I ask is an opportunity to prove the truthfulness of this assertion.

AN INVALUABLE DISCOVERY,

BY WHICH

Water can be Turned into Money.

Truly has it been said, "That the riches of this world, lie buried in the bowels of the earth." The precious metals that are daily taken from thence, readily procure all the luxuries and comforts—save, the great boon to the sick, Health—without which, life is a burden, and the millions of the Rothchilds' would fail to secure.

To females suffering from Leucorrhea, (or Whites, as it is commonly called,) I, as a Physician of many years experience, would say, that you need not longer endure a miserable life of pains, aches and general debility, or weakness, the consequence of this deplorable disease.

All Physicians, of modern teaching, will admit the great difficulties in arresting this destroyer of health, for various reasons unnecessary to mention. Patients suffering therefrom will as readily agree, that medicines, however carefully prepared and used fail, in most instances, to afford relief; and in many, from long continuance, produce debility, thereby increasing the malady they were expected to relieve.

Deeming it a great privilege to be a public benefactor, and to the comforts of the afflicted, by placing before them means of relief, I here give the history of a few cases of great interest that have fallen under my professional care.

MRS. ——, a lady of the highest standing in the city of Charlotte, N. C., had been an incessant sufferer from Leucorrhea for three years. Her cheeks were blanched, her skin always cold and almost transparent—in fact she seemed not to have a red corpuscle in her body. So weak was she, that it was with great difficulty she could ascend a flight of stairs, without feeling faint and exhausted. Palpitation of the heart, head-ache, and a dizziness in the head, besides excruciating pains in the back, together with a bearing-down sensation in the region of the womb, were constant and alarming. Notwithstanding they were but symptoms of extreme debility, induced or kept up by the never ceasing drain from her system. In this condition, every means at my command was used for her relief. Remedy after remedy was tried. Every means recommended by our modern authors proved worthless in her case. Hearing of the case of a servant, whom I had formerly treated, (belonging to Mr. Cross,) having been very much benefitted by this mineral water, I resolved, (without further inquiry,) as the last resort, to recommend to her its use. Anxious to be restored once more to health, she readily acceded to my proposition, and visited this well daily. Soon improvement was visible, and in the short space of three months her health was entirely restored. A living monument to the great curative virtues of this water.

The next case of great interest is that of the servant woman already spoken of. Seven years previous to the discovery of this well, Mr. Cross engaged my services in the case of this woman. I made most careful examination and searched out all of the particulars of her history. She had suffered for 18 years with Leucorrhea, and being sorely afflicted therefrom, it was universally known in our community, that she was the martyr of the town. I found her with all of the distressing symptoms attending this malady, and could only afford her temporary relief. Time passed on, and still her afflictions did not abate. She abandoned all hope of recovery, and resolved to take no medicines, but to resign herself to the fate which seemed to await her. Her master just then having discovered this well, advised that she should drink freely of the water, as it might be of some benefit to her. Like a drowning man catching at straw, she tried it, and improvement was soon perceptible. Perseverance was crowned with success, and this day she is a strong and healthy woman, and can be seen at the residence of her former master, and will take great pleasure in relating, *in detail*, to any visitors, the history of her case.

Many other cases known to us, of equal interest, have been cured, and others are being daily benefitted.

It is to be regretted that the pecuniary embarrassments incident to the late war precludes the idea, of Mr. Cross' fitting up this valuable property, as a resort for invalids. Under these circumstances, the owner (Mr. George Cross, of Charlotte, N. C.,) is willing to dispose of his property at the very reasonable price of $10,000 in U. S. currency, and will communicate with any one either by letter or personally.

The plantation of 100 acres of fine and productive land is situated within one and a half miles of the city of Charlotte, N. C., immediately on the Wilmington, Charlotte and Rutherford Railroad. A fine residence, with modern improvements and conveniences, together with all necessary buildings attached, have just been completed, and to capitalists seeking investments no finer inducements could be offered.

FOR THE CURE OF DYSPEPSIA, DISORDERED Digestion, Flatulency, Sluggish Circulation of the Blood, Bilious Complaints arising from a morbid condition of the Stomach and Bowels. An Elegant Tonic in debilitated states of the Digestive Organs, or of the system generally. For the loss of appetite it is the most wholesome and effectual Tonic in the world. It strengthens nature and enables the system to triumph over disease. In wakefulness attended with tremors and general nervous derangement, it is peculiarly adapted, giving strength and tone to the nerves. To delicate Ladies and Children it is invaluable—and in fact whenever a pleasant and agreeable Tonic is wanted, this should be used.

Dr. Johnston B. Jones, one of the most scientific and well known Physicians in the Southern States, testifies to its great value, besides many others who have been greatly benefited by the use of these Bitters.

BY

ELLIOTT & SHIELDS.

THE PUBLISHERS, determined to exert all their energies, look with confidence to the new year for such an increase of patronage as will enable them to enlarge the usefulness of THE FARMER, and make it a still more desirable medium for advertisers.

SUBSCRIPTION.—The terms of subscription have been made so low and reasonable as to place it within the reach of all who may desire it; and in view of the great interests to be served by an extensive circulation, we confidently expect the hearty co-operations of many in those sections of the country not now supplied with a good Agricultural Journal.

TERMS OF SUBSCRIPTION:—For a single copy one year, $3,00

CLUB RATES:—Five copies one year for $13,00; ten copies one year for $25,00; fifteen copies one year for $37,00; twenty copies one year for $49,00; twenty-five copies one year for $60,00; and larger clubs in the same proportion.

To secure the advantages of these liberal terms, the clubs must be complete at the time of subscription, and the money accompany the order.

It is not required that all the subscribers to a club shall receive THE FARMER at one office. If necessary it will be mailed under the club arrangement to as many different offices as there are subscribers to the club.

Friday Evening, Feb. 8, 1867.

Relief for the People.

We stated on yesterday, that the mass of the debtor class in North Carolina did not demand the repudiation of their debts; but they do demand of their creditors either a fair and just compromise under the circumstances or a suspension of suits at once, by which they can get time to pay, and exemption from forced sales of property and heavy costs. If we understand them, they do not ask for the suspension of the courts or any other immunity, except as we said before, exemption from forced sales of their property and heavy costs. Propositions to suspend the courts or limit their jurisdiction, except in so far as may be necessary to protect debtors from immediate ruin, in our judgment, is both unwise and unsafe.

To the Legislature the people are anxiously looking. Such has been the diversity of sentiment; the anxiety of each one to have that or this method adopted, and *nothing else*, we fear, is a mere waste of time, and admonishes us that nothing effective and safe will be done. Propositions for adjournment are made daily, when the fact stares the Legislature in the face, that if it adjourns leaving the people to the mercy of the judgments and executions, soon to be taken in every county in the State, that consequences the most serious may be apprehended. One single bill or act of the Legislature is sufficient to effect the desired object. The large number of bills looking to this object, are likely to defeat the whole matter. We ask for no unconstitutional measure, but one that will afford the present relief desired.

P. S. Since the above was written, we are glad to say that the Senate, to-day, passed a bill that provides the remedy.

Mr. Stevens' Bill.

The bill of Mr. Stevens from the reconstruction committee, under discussion in the House on yesterday, of which notice is given in our telegrams, is the one referred to that committee the other day, introduced by Mr. Williams. It seems that Mr. Stevens has abandoned the slow and troublesome scheme of territorialization directly, but adopts the scheme of renewing the war upon the Southern States. One of its friends remarked, that it was beginning where Grant and Sherman left off. It rather takes up the case anterior to the termination of the war by them, and renews it upon an unarmed and defenceless people. The bill proposes to place the ten States who rejected the Howard amendment under strict military government, superceding the governments in existence, reviving the suspension of the privileges of *habeas corpus*, and in effect renews the war of subjugation and extermination. There are a goodly number of persons in Congress, who will sustain it, but we trust, there are enough men in Congress who will not lend their influence, to a scheme for which there is no justification, nor an apology, before earth or heaven.

Col. C. C. Tew.

The following statement by the Hillsboro' *Recorder*, looks strange. Mr. Wallace, we learn has been to Hillsboro' and communicated with Mrs. Tew and her friends. Rumor in this matter will be busy, and therefore the public should receive with allowance what is said of it. Doubting the statements attributed to Mr. Wallace, we regretted the publication of them, lest it might revive a hope never to be gratified, in the bosom of his friends and especially in her who was nearest to him. Hence we delayed noticing it. Now we learn, that the statements of Mr. Wallace are so far credited, that one of the Professors of the Academy has been despatched to ascertain their truth. Under these circumstances, it is best for the press to await further developments, and suspend the publication of those statements from parties, who aver that Col. Tew is dead. The following, from the Hillsboro' *Recorder*, may be relied upon as containing the grounds upon which Mr. Wallace's statements are believed in Hillsboro.'

The citizens of this place were greatly surprised, though gratified, to learn that Col. Tew is probably yet alive. A young man, who gives his name as W. W. Wallace, a citizen of Little Rock, Arkansas, represents himself to have been a prisoner in the government prison at the Dry Tortugas, where he had been confined since June 1862, and from which he was released on the 7th of January last. He says that among the prisoners at present confined at the Dry Tortugas, is Col. C. C. Tew, who was wounded and captured at the battle of Sharpsburg; that he was taken to Fort Delaware, and afterwards to Fort Clinch, on the Florida Coast, that at some point, in his transfer, in an attempt to escape, he killed a Col. Turner of the Northern army; for which he was tried by a court martial, and sentenced to perpetual imprisonment at the Dry Tortugas; that he had been severely wounded in his hip, probably in the attempt to escape, from which he was still suffering. He says that Col. Tew is passing under an assumed name, but that he gave him his real name; and though professing to no intimacy, or frequency of intercourse with Col. Tew, is satisfied of his identity. It will be remembered that at the first report of his death, it was stated that he was shot in the head; this man says he has still the marks of a wound in his head.

West India Trade.

In former days the West India trade of Wilmington, Newbern, Washington, Plymouth, Edenton and Elizabeth City, was large. Immense quantities of lumber, shingles and staves, were shipped from those places, and those markets were at all times well supplied with salt, molasses and sugar. We are not aware that this trade is now kept up, except at Wilmington and Newbern, and we judge to a much, smaller extent than formerly. One of the chief causes of this decline, we presume, is the remarkable declension in the productive power of the West India Islands, since the abolition of slavery.—Shipments to the West Indies have not been as readily sold as formerly, nor have our products commanded as good prices. Yet we should be glad to see the trade revived as soon as it is profitable.

Cotton and Wool Factories.

We give an account of the Factories in operation in South Carolina and other parts of the South, in our columns to-day, as a means of encouragement. The Sandersville *Georgian* errs in some of its statements in regard to this State, yet the evidences are cheering that the spirit of manufacturing in the South, is growing steadily.

A statistical account of the progress of this spirit in each of the Southern States would do good, and increase the spirit of intemperance generally. To effect this object in this State, we would be greatly obliged to the proprietors of the various cotton and wool factories in the State, if they would furnish us a correct exhibit of the factories under their control, setting forth, first, the locality; character of buildings and machinery; estimated value of property attached; amount of raw material, cotton or wool, consumed in a year; number of hands employed, and the amount and character of the goods, or the capacity of the mills to produce in a year, and their estimated value. We hope our friends who read the *Sentinel*, will call the attention of manufacturers to this request. We should be glad also, to have a list of the factories projected, the amount of capital invested, the goods to be produced, &c.

Mining Wealth of North Carolina.

Will not our friends in different portions of the State, furnish us the facts for publication, in regard to the ownership, locality, estimated value, supposed extent and annual production of the various gold, copper, iron and coal mines of the State. Also, the locality of the forges or foundries, their character, productiveness &c. &c., of the iron factories of the State. All of these matters should be made public, in order to their increase and the addition of capital from other quarters. Our people are too reticent upon these matters.

DIRECT IMPORTATION.—The British barque *Amazon*, of Windsor, Nova Scotia, Thomas E. McDonald, master, who formerly commanded the brig *Lone Star*, and made in her several regular trips between Liverpool and this port previous to the war, has been chartered by Mr. A. H. VanBokelen and will take in a cargo for Falmouth, England. The *Amazon* is now in port and as soon as loaded will depart. She is a vessel of 420 tons burthen and is capable of carrying 4,000 barrels of Naval Stores. She possibly may sail for Liverpool direct, in which event a considerable quantity of cotton will be taken out.—*Wil. Journal.*

The above furnishes some encouragement to hope, that a direct trade with Europe has been actually commenced at Wilmington. Mr. Van Bokkelin is one of those energetic men, who holds on when he takes hold, and will fully test the practicability and utility of the enterprise. There are others, also, who are testing it, whose names we do not now call to mind, who are of the right stamp.

Washington Matters.

[Correspondence of the Baltimore Gazette.]

WASHINGTON, February 5, 1867.

In commenting upon the statements in my letter of the 3d instant, respecting the recent Southern movement in the direction of a peaceful solution of existing difficulties, the *National Intelligencer* remarks:

"The correspondent of the press from which we quote above indulges in gloomy apprehensions as to the probability of the initiation of steps for impeachment. Upon this last thing we expressed the opinion long ago that it was only held up as a menace to the President and as a means of imbuing the popular mind with the idea that the 'Government,' as the hot-heads termed the 'Administration' during the war, was wicked and corrupt at heart. But the men in Congress who went 'hunting' after the President find that the people are aroused and are 'hunting' for them. They tremble and shrink from sustaining the special leader in this business, who, so far from having clean hands himself, is on the record over his own sign-manual as one who meditated, through the use of his power and influence, public spoliation in fraud of the rights of the people."

There is no authority connected with the newspaper press to which greater respect should be paid than that of the *Intelligencer*, and I should gladly defer in this instance to its judgment and extensive means of accurate information, were adverse evidence less imposing. Not to repeat what I have heretofore written, it would seem incredible that a party would by a solemn vote initiate a proceeding which, if not triumphantly pushed through at all hazards, must inevitably end in utter ruin to their organization. Its sole "stock in trade" now consists in the monstrous lie that the President has been guilty of "usurpation," "betrayal of the country," of 'implication in the assassination of Lincoln," of "selling pardons for money" and the like, and if these charges are not intended to be sustained by perjured testimony and followed up by impeachment and ejection from office, then the present action of the Judiciary Committee under the orders of the House would indicate a degree of insanity which would indeed give hope, that the leaders had reached that pitch of madness which the gods are said to inflict preparatory to utter destruction. Besides, their whole system of measures hangs upon the contingency of the President's removal. Nevertheless, the opinion of such a reliable and well-informed journal as the one just quoted should not be withheld from a public accustomed of late to reading as much upon the other side.

GOOD FARMING.—The Ocala (Florida) *Banner* says:

"A gentleman in this vicinity purchased 120 acres of pine land—one-half cleared—for $375. With himself and family, consisting entirely of females, assisted only by a small boy, for whose services he paid $50, he raised the following crops, viz: Eight bales of long cotton worth about $2,000; $850 worth of corn; $300 worth of potatoes; oats and fodder worth $75, and from the pinders raised he fattened $400 worth of pork. In the production of these crops he employed two horses. His total expenses for the farm and the support of the family was $600."

The Washington *Chronicle*, in an article on the course which ought to be pursued towards the South, says—"that hard as the lesson is, the South must learn that in *peace*, as in war, the North is the more *powerful*." This is about the English of what Prussia says to Poland.—*Alex. Gazette.*

NORTH CAROLINA LEGISLATURE.

SENATE.

FRIDAY Morning, Feb. 8.

The Senate was called to order at 10½ o'clock.

A communication from Mr. Henry R. Blackwell, of New York, making suggestions relative to the course the South should pursue, was referred to the committee on Federal Relations.

REPORT OF COMMITTEES.

Mr. Hall, from the committee on Education, to whom was referred a communication from the Governor, President of the Literary Board, relative to Common Schools, with a bill providing for the preservation of said property and the transfer of all funds belonging to the Common School system to the Literary Board, reported back the same recommending its passage.

Mr. Johnson, from the committee on Corporations, to whom was referred a bill to encourage immigration, considered the same, suggesting sundry amendments and recommended its passage.

Mr. Love presented a memorial from the citizens of Craven county relative to the consolidation of the Atlantic and N. C. the North Carolina and the Western North Carolina Railroad Companies.

RESOLUTION AND BILLS.

Mr. Barnes, a bill to amend the charter of the town of Murfreesboro' in the county of Hertford. On motion of Mr. Wiggins, the rules were suspended and the bill passed its several readings.

Mr. Battle, a resolution providing that no Senator shall speak longer at one time, on any question, than fifteen minutes. Adopted.

Mr. Speed, a bill granting amnesty and pardon to females. Filed.

Mr. Jones, a bill authorizing the sale of the Chatham Railroad. Referred to the Committee on Internal Improvements.

By the same, a bill to amend the charter of the Raleigh & Gaston Railroad Company. Referred to the Committee on Internal Improvements.

Mr. Johnson, a bill to amend the 18th section, 111th chapter of the Revised Code. Referred to the Committee on Corporations.

On motion of Mr. Thompson, the rules were suspended and the bill to create the County of Vance was taken up, and made the special order for Wednesday next, at 12 o'clock.

Mr. Wilson, a bill to promote the administration of justice in the County Courts. Referred to the Joint Select Committee on the Judiciary.

A message was received from the House transmitting the Revenue bill, which was read. Mr. Wilson stated that in consequence of the numerous amendents adopted by the House to this bill, he did not think the Senate could act intelligently upon it in its present condition, and moved to re print the same for the use of the Senate. Agreed to.

SPECIAL ORDER.

Bill to amend the Constitution of North Carolina, came up, and, on motion of Mr. Berry, its consideration was postponed for the present, and made the special order for Wednesday next at 1 o'clock.

A message was announced from the House, transmitting a communication from the Governor, enclosing a communication from the Public Treasurer, with a proposition to refer the same to the Committee on Finance. Also, a communication from the President and Directors of the Literary Fund, with a proposition to refer to the same Committee. The references were made.

UNFINISHED BUSINESS.

Bill to change the jurisdiction of the Courts, and the rules of pleading therein, came up, the question being on the amendments offered by the Committee, which was agreed to. Mr. Avery proposed to amend by striking out, in the first section, the word six, and insert twelve, thereby giving a longer period to make the first payment. Agreed to.

Mr. Speed, then offered to amend by striking out all after the enacting clause, and insert his bill as a substitute. (This bill provides that the civil jurisdiction of Justices of the Peace, the County and Superior Courts of law and equity in this State be suspended, from and after the ratification of this act, until the 1st. of Jan. 1868 and that the civil jurisdiction of the Supreme Court be suspended to the same date, and authorizing the Governor to appoint Courts of Oyer and Terminer to be held for every county in the State, for the trial of all violation of the criminal laws and statutes of the State, at least, twice in each county in the State, between the time of ratification of this act and the aforesaid 1st day of Jan. 1868, and to appoint one of each of the Judges of the Superior Courts of Law and Equity to hold the same in each of the Judicial Districts of the State under the same rules, regulations, laws and restrictions as heretofore prescribed for the holding of Courts of Oyer and Terminer, and authorize the Governor to convene the Supreme Court of North Carolina at the city of Raleigh, by and with the advice and consent of his Council, at any time after the 1st day of July, 1867, to hear and determine any criminal cases that may be brought before it, by appeals from the Courts of Oyer and Terminer, and for no other purpose.] A discussion of considerable length ensued, in which Messrs. Thornton, Speed and Paschall favored and urged the passage of the substitute. Messrs. Wilson, Hall, Covington, Cowles, Cunningham and Avery, opposed the substitute. They believed it to be fraught with much mischief; a fatal blow to the judicial system of the State, and a direct move in the direction of *repudiation*, and held that this body had no authority to paralize the arm of the Judiciary. If it has this power, it has the right to paralize the arm of the Executive.—They were for the relief of the people, but opposed to unconstitutional measures.

The remarks of Mr. Thornton, in support of the substitute, will appear to-morrow.

The question recurring on striking out the original bill, on motion of Mr. Adams, the original bill was amended, and on striking out, the ayes and nays were called, and the Senate refused to strike out by the following vote:

YEAS.—Messrs. Bullock, Ferebee, Harris, of Rutherford, Jones, Matthews, Paschal, Perkins, Speed, Thornton, Wiggins—10.

NAYS.—Messrs. Adams, Avery, Battle, Barnes, Berry, Brown, Cardwell, Clark, Covington, Cowles, Cunningham, Edwards, Etheridge, Gash, Hall, Harris, of Franklin, Hill, Johnston, Kelly, Keonce, Leach, Love, Lloyd, Marshall, McCorkle, McLean, McRae, Moore, Richardson, Thompson, Willey, Wilson—32.

The question then recurring on the passage of the bill on its second reading, the bill passed by a vote of 40 to 2.

On motion of Mr. Leach, the rules were suspended and the bill was put on its third reading.

Mr. Matthews offered an amendment which was rejected.

Messrs. Wilson and McCorkle stated that they were as much in favor of giving relief to the people as any one, but they could not consistently vote for it, as they believed it unconstitutional.

The bill passed its third reading, ayes 40, nays 2.

On motion of Mr. Leach, the Senate adjourned.

HOUSE OF COMMONS.

FRIDAY, February 8th.

The House was called to order at 10½ o'clock, A. M.

On motion of Mr. Kenan, use of Commons Hall (for this, and to-morrow evenings) was granted Col. Farrar, of Virginia, for the delivery of lectures.

On motion of Mr. Cowan, the House proceeded to consider a bill to establish a criminal court in the county of New Hanover. Passed second and third readings under a suspension of the rules.

REPORTS OF COMMITTEES.

Mr. Waugh, from the Committee on Propositions and Grievances, reported back, *favorably*, a bill to secure better drainage of the lowlands on Lower Creek, in Caldwell county; and *unfavorably*, a bill to authorize the erection of a fence in the county of Perquimons.

By Mr. Dargan, from the Judiciary Committee, *favorably*, a bill to authorize the appointment of inspectors of crude turpentine, by the county court of Cumberland.

By Mr. Kenan, from the same committee, *unfavorably*, a bill to authorize Sidney Deal, former Sheriff of Watauga county, to collect arrears of Taxes.

By Mr. Morehead, from a committee of investigation, made a favorable report as to the management of the Artificial Limb Department, and the character of the limbs furnished disabled soldiers.

BILLS AND RESOLUTIONS.

By Mr. Dargan, a bill for the relief of Executors, Administrators, etc.

By Mr. Everett, a bill to appoint a special magistrate for the town of Goldsboro.

By Mr. Latham, of Craven, a bill to incorporate the Neuse River Ferry Company.

By Mr. Hutchison, a bill to incorporate the Charlotte Merchants and Planters' Benefit Association.

By Mr. Peebles, a resolution of inquiry relative to the management of the University.—Adopted. (Raises a committee of five to carry out its purview.)

An engrossed bill to protect landlords against insolvent tenants, had its first reading.

UNFINISHED BUSINESS.

The House resumed the consideration of the bill to transfer the Land Scrip, donated by the United States, for the establishment of an Agricultural College.

The question being on the substitute offered by Mr. Logan, on yesterday, the clerk, at Mr. Durham's instance, read an act of Congress, passed in 1866, extending the time allowed the several States, in which to avail themselves of the Land Scrip previously donated.

Mr. Durham said that since the rejection of the substitute which he had offered, he preferred a postponement of the whole matter. The Land Scrip if sold now would bring but fifty cents *per acre*. Delay would not be injurious, as the time had been extended, and the scrip would increase in value. He moved an indefinite postponement of the bill and substitute.

Mr. Cowan stated that he was not aware of the existence of the act extending the time in which the Land Scrip might be accepted. He was still opposed to postponement, and favored an immediate transfer of the scrip to the University. The opponents of the bill were hopelessly divided on the question of location, and he saw no reason why the State should lie out of the benefit of this fund for four years longer.

Mr. Durham again addressed the House urging postponement. He alleged that the friends of the bill had endeavored to press it through in hot haste at the last session, on the plea that immediate action was necessary in order to secure the donation. It was now shown that haste was unnecessary. He adverted to prejudices existing against the University under its present management, and urged at some length to show the impolicy of bestowing the scrip upon that Institution.

Mr. Davis stated in reply that it was well known that the friends of the bill had urged its passage at the last session because of information by telegraph, that a resolution retracting the donation had passed one House of Congress and was likely to pass the other.

Among other arguments in behalf of a transfer of the scrip to the University, Mr. Davis alluded to the establishment at Chapel Hill of a department devoted to instruction in Agriculture and the Mechanic Arts. The gentleman from Cleaveland (Mr. Durham) had characterized this action of the Trustees as a bid for the land scrip. If it was a bid for it, it showed that they had the interest of the State at heart. To the argument that the value of the lands would be enhanced by delay, he replied that the States had power to sell the scrip, but could not locate the lands. We could only hold the scrip as speculators. Similar action had resulted in heavy loss to the State of Rhode Island. Most of the States had transferred their scrip to some established college, Iowa only, having founded a new one.

Mr. Russ favored postponement. Owing to the distressed condition of the country lands could not be sold to advantage. The value of the scrip, would in his opinion, be materially enhanced by delay.

Messrs. McKay, Peebles, Morehead and Brown opposed the motion to postpone, and favored the passage of the bill without further amendment.

Messrs. Everett and Crawford of Macon favored the motion for postponement.

After a general and protracted discussion the House refused to postpone.

The substitute was then rejected Yeas 47—Nays 58.

The bill then passed its third reading as follows:

YEAS.—Messrs. Allen, Baker, Boyd, Bowe, Brown, Chadwick, Clark, Cowan, Collins, Crawford, of Rowan, Dargan, Davis, Davidson, Gorham, Granberry, Guess, Harper, Henderson, Hodnett, Hutchison, Jones, Kelsey, Kenan, Kendall, Latham, of Craven, Lee, Long, Martin, McClammy, McGougan, McKay, McNair, McRae, Moore, of Hertford, Moorehead, Murrill, Patton, Peebles, Perry, of Carteret, Reinhardt, Richardson, Rosebro, Rountree, Scott, Shelton, Smith, of Duplin, Stone, Turnbull, Umstead, Waugh, Westmoreland, Wilson, of Forsythe, Williams, of Pitt and Woodard—54.

NAYS.—Messrs. Ashworth, Autry, Barden, Beasley, Black, Blair, Blyth, Brittain, Carson, Clements, Crawford, of Macon, Durham, Everett, Farrow, Freeman, Gambril, Garrett, Garris, Godwin, Henry, Hinnant, Holderby, Horton, of Watauga, Horton, of Wilkes, Houston, Jenkins, of Gaston, Jenkins, of Granville, Jordan, Latham, of Washington, Logan, Lyon, Lutterloh, May, Moore, of Chatham, Morton, Neal, Perry, of Wake, Rogers, Russ, Scoggin, Simpson, Smith, of Guilford, Sudderth, Teague, Trull, Vestal, Walker, Whitfield, Williams, of Harnett, Williams, of Yancey, Womble and York—52.

Mr. Waugh moved to reconsider the vote just taken.

Mr. Davis moved to lay the motion to reconsider on the table.

This last motion prevailed as follows—the Speaker giving the casting vote—yeas 49, nays 50.

The following bills passed second and third readings under a suspension of the rules, viz. a bill in favor of widows, a bill to repeal an ordinance of the Convention changing the time for holding State elections, a bill authorizing the county court of Cumberland county to fund the interest on their bonds, a bill to authorize the Mayor and Commissioners of the town of Fayetteville to fund interest on bonds, and a bill to incorporate the N. C. Agricultural and Manufacturing Company.

Mr. Perry of Carteret, by leave introduced a resolution authorizing a republication of Winston's Law and Equity Reports.

Mr. York, a resolution to restrict debate. (Lies over.) Also, a resolution to adjourn *sine die* on the 16th inst. Laid on the table, on motion of Mr. Waugh.

By Mr. Hutchison, a resolution in favor of the Southern Express Company.

By Mr. Murrill a resolution in favor of J. J. Ketchum, a disabled soldier. This resolution, after discussion passed its several readings having been amended by extending it provisions to sundry other disabled soldiers authorizing the payment of commutation in lieu of artificial limbs.

The House then adjourned.

(The bill authorizing the appointment of inspectors of crude turpentine in Cumberland county, introduced a day or two since, was introduced by Mr. Lutterloh—not by Mr McKay, as heretofore stated.)

The Cotton Factories of South Carolina.

At the present time, when every nerve is strained to regain our former commercial prosperity, as well as to encourage and develop all internal resources of wealth, particularly the growth of manufactories, a test of those already established, with their status, &c., would be a strong incentive for others to go and do likewise. There are at this time twelve cotton factors in successful operation in different parts of the State, and companies are being organized in every district, for the purpose of making their water power available, and for forming manufactories of their own.

It is clearly seen that the only way to acquire wealth is to control the resources of the State, and all cotton sent beyond its borders returns greatly enhanced in price. New England has been built up, and her present prosperity altogether caused, by her large manufactories. A similar course pursued by the South will produce the same result; population will be attracted by the employment offered; and as the years roll on, they will bring increased prosperity, until the face of the country will be dotted with thriving villages.

Under the new *regime* there is but little left but energy and activity; but these brought into play will achieve wonders, and the future depends altogether upon the proper development of these faculties.

We clip from an exchange the following account of the different factories in this State.

1. The Graniteville Manufacturing Company, under the superintendency of Wm. Gregg, Jr., is located in Edgefield District, in a little factory village that has grown up about the establishment. It runs 10,000 spindles, has 300 looms, and employs 330 operatives. The capacity of this factory is to be doubled in the course of the present spring.

2. The Kalmia Mills are in Edgefield District, about eight miles from Augusta, Ga., but are not yet completed. This establishment is under the direction of Mr. B. F. Evans. It will run 10,000 spindles, using 600 looms, under about the same number of operatives.

3. The next factory in importance—the Vaucluse Mills—was recently destroyed by fire. It run 4,000 spindles, and gave employment to 135 hands. It was situated about two miles north of Graniteville. The destruction of this establishment has thrown adrift about 350 persons, now left destitute.

4. Lawson's Fork Factory is situated five miles east of Spartansburg. It runs 1,000 spindles, 25 looms, and employs 60 operatives.

5. The Batesville Manufacturing Company is at Buena Vista, in Greenville District. It runs 1,260 spindles, 36 looms, and employs 50 operatives. It is under the superintendence of Mr. James Montgomery.

6. McBee's Mills are seven miles from the town of Greenville. It runs 1,130 spindles, 22 looms, 120 wood spindles, and employs forty hands. Mr. L. H. Shumate is Superintendent.

7. Baresdale Factory, on Emoree river, in Spartansburg. 20 miles South of the court-house, runs 1,000 spindles, and has fifty hands.

8. Crawfordsville Factory is eighteen miles from Spartansburg, runs 1,900 spindles, and has twenty looms.

9. Cedar Hill Factory, in Spartanburg District, runs 1,000 spindles, and has twenty looms.

10. Lester Cotton Factory, in Greenville District runs 340 spindles, and employs thirty operatives. Its capacity is to be doubled the present winter.

11. Valley Falls Factory, five miles from Spartanburg Court House, runs 500 spindles.

12. Fingerville Factory, north of Spartanburg Court House, runs 500 spindles, and has 20 looms.

This exhibit presents over 32,000 as the number of spindles in operation in South Carolina. It will be observed that all these cotton factories are in parts of the State where very little cotton is grown—Spartansburg, Greenville and Edgefield Districts. It is because they cannot produce cotton that they devote themselves to manufacturing it.—*Charleston News.*

EVENING AUCTIONS.

WEDNESDAY AND FRIDAY EVENINGS.

FERTILIZERS FOR SPRING CROPS.

WE beg to inform the trade and planters of North Carolina and Virginia, that we are prepared to furnish them with the most approved FERTILIZERS, on the most accommodating terms. We will have a stock of genuine PERUVIAN GUANO, purchased direct from the Agent of the Peruvian Government.

We have now in store, for immediate delivery, 225 tons BRADLEY'S SUPER PHOSPHATE OF LIME, which won for itself such an enviable reputation in the Cotton and Tobacco counties of North Carolina and Virginia, last season, proving itself equal, and in many important respects, superior to the Peruvian Guano. We give an analysis of it as ascertained by Dr. Hayes, one of the most eminent Chemists in the country:

Results of Analyses Made of Bradley's Patent Super-Phosphate of Lime, as now sold by Wm. L. Bradley.

100 PARTS CONSIST OF	
Moisture	7.30
Prepared animal matter, salts of Ammonia, fatty substances and Humus	38.50
Bone Phosphates of Lime, Magnesia and Iron	36.80
(Soluble Phosphates of do. 16 6-10.)	
Sulphate of Lime	16.50
Salts	20
Insoluble	2.60
	99.90

The animal matter afforded 4 2-10 parts of Ammonia when it was decomposed, and, as will be seen, nearly one-half of the Bone Phosphate is soluble.

After many analyses of your Super-Phosphate of Lime, made during the last few months, I have found your standard of quality full equal to that of any you have ever sold in former years; and I am satisfied that you include the correct principles in the manufacture. Respectfully,

A. A. HAYES, M. D., State Assayer.

We refer to the following gentlemen who tested its merits last season:

SELLING OUT AT COST.

HUMBUG—HUMBUG.

ASK THEM IF THEY WILL SELL WAMSUTTA A. prints at 12½ c per yd.

Arnold's and Freeman's at 13½; Phillip Allen's, Spruce's Dunnell's and American prints at 15 c. per yd., good styles, good quality and good colours, fine round thread and well compacted.

Ask the gentlemen if they will sell heavy 4-4 Brown Domestic at 18 c. per yd?

Ask them if they will sell New York Mills 4-4 Bleached Domestics at 35 c. per yd.

Ask the gentlemen if they will sell Wamsutta and Lonsdale 4-4 Bleached Domestics at 23 c.

Ask them if they will sell powdered, and crushed sugar at 14 c. per lb.

Ask them if they will sell Rio Coffee at 23½ c. per lb., a good article, not dead grains, NOT ROCKS, BUT COFFEE.

If they will sell them at the above prices they are cheap, if they will not, leave immediately.

A FEW WORDS TO MY FRIENDS AND CUSTOMERS.

I advertised in the early part of the season that I would sell goods as cheap, as Yankee, Jew or Gentile, Cost Houses not excepted—as cheap as he who had paid for his goods, or ever intended to pay for them. And I here take the privilege to say, that I think my customers will bear me out when I say, I have done so in almost every instance.

I told the people to "come to Creech's," to buy their goods—they have come, and they are still coming—and I think they will pardon me when I say they have shown their good judgment.

I now tell them to "come to Creech's" to buy their goods.

I don't advertise my goods at New York Cost.—I intend to represent my goods to you in a fair and equitable way, and sell them fully as cheap as any so-called Cost House. And I here say to the so-called cost gentlemen, if they paid what they charge their customers for goods, I advise them to go back to the License man and surrender their license. Go back to your Land-lords and ask them to take back your houses,—and proclaim to the world that you have missed your calling, and are not fit for merchants.

I compromised my debts that I owed North before the war, by paying them at one hundred cents in the dollar.

Let them start their opposition—let them all talk. But "come to Creech's," to buy your goods. You will find me at R. Smith's corner, ready and willing at all times to serve you right.

Market Square.

UPCHURCH & DODD HAVING NOW OCCUPIED their new Store on Market Square will be glad to wait on their old friends and customers.

We pledge ourselves to use every effort to sell articles in our line of business, at as low prices as they can be purchased in the City.

Country Merchants and other Dealers in our line of business will do well to examine our goods and prices, before purchasing their stocks.

We have plenty of Store Room and expect to keep constantly on hand a large assortment of *Groceries*, and as we can buy at as low prices as any others, we expect to sell at as low figures, as will afford us a living profit.

Mr. Thos. L. Lassiter, of Chatham Co., is still with us and will be pleased to see his old friends and acquaintances, give him a call.

In a very short time we expect to add to our business an assortment of Dry Goods, Hats and Shoes. Due notice of which will be given in the newspapers.

THE SENTINEL.

Friday Evening, Feb. 8, 1867.

LOCAL DEPARTMENT.

JOHNNY REB.—The Lecture of Col. Farrar, last night, in the Commons Hall, we are glad to learn, was attended by a large and appreciative audience, who manifested their gratification by repeated rounds of applause. We are assured that it was a rare entertainment. We regret our inability to attend.

He lectures to night, at the same place. His subject will be "The American Eagle." This is said to be more humorous and entertaining, if possible, than "Johnny Reb."

WAKE FOREST COLLEGE.—This institution, we are glad to learn, continues to receive accessions to its number of students. Arrangements are made by which good board is now obtained at the College at $10 per month.

THE POOR.—Mrs. I. W. Hughes, of Newbern, Treasurer of the Benevolent Society of that city, we learn from the *Commercial*, acknowledges the receipt of $161,10, the nett proceeds of a recent Tableaux, for the benefit of the poor.

N. C. RAIL ROAD.—We shall commence on to-morrow the publication of a lengthy reply, by Gen. Barringer, of Charlotte, to the speech of Hon. Jos. Turner, Jr. of Orange, made at the meeting of the Stockholders, held in this city, and which we published some time since. The delay of the reply has been occasioned by unavoidable circumstances.

SHAD—Are coming into market now in considerable quantities, but the price continues quite high, the venders asking and maintaining from $1,50 to $2 per pair. The meet with but a slow sale, however, at these figures, and many lovers of shad are standing off waiting for a reduction in price.—*Wilmington Journal.*

TARBORO AND WILMINGTON RAIL ROAD.—The Tarboro *Southerner* gives the following encouraging account of the progress made in getting up this company:

"The great necessity of Railroad connection with this place is fully appreciated, and, after much delay, we are glad to see that some active steps are about to be taken in regard to it.—About $100,000 have been subscribed towards it, and a meeting of the Stockholders will be held in Williamston on the 12th of this month, when the officers of the road will be elected."

For the Sentinel.

Railroads.

MESSRS. EDITORS:—I submit a few thoughts about Railroads, which I would be glad you would publish for the consideration of the members of the Legislature. It becomes a State to be alive to her *own* interest in building Railroads and granting charters.

As to the extension of the Fayetteville and Coal Field Road across the State towards Virginia, it certainly would, in my opinion, be best for the interest of the State at large, that the road should stop at some point inside the State, and not go into Virginia. If the charter is granted to the line, of course the Virginians would carry it on to Wytheville, or some other point on the Virginia Road. This arrangement then, would swell the already enormous freight of that road, to the detriment of N. C. Roads. This fact cannot be disputed. Let us build up our own seaports. Let us aid Fayetteville, Wilmington, Newbern, &c. Let us have *feeders* to our own main stems. Stop the road at Mt. Airy, for instance, which is eminently a suitable place, and the teeming products of Virginia will go over N. C. Roads, and goods in return will come through N. C. seaports and over our own roads. By the by, one would be surprised at the large accumulation of freight taken in from the counties of Surry, Stokes, Forsythe, Yadkin and Alleghany, at the Max Meadow depot, on the Va. & Tenn. Railroad.

I have no hostility to Virginia. I wish her all the wealth and success which the enterprise and public spirit of her noble sons are so richly deserving; but I love the old North State, and wish to see her prosper. I would not willingly see her injure herself for the good of others.

Look at the map of South Carolina. You see some half dozen or more branch roads acting as feeders to the main Trunk Road. These branches terminate *in* the State, near the lines of South Carolina and Georgia. They carry freight and travel to their main roads, which are unloaded in their own seaport. Hence, Charleston has been a great place. At the upper termini of all these feeders or branch roads, have sprung up, large and flourishing inland towns attracting capital, and attracting strangers, thus aiding, by their increasing wealth, in bearing the burden of taxation.

Let the Legislature grant a charter, and State aid to this Mt. Airy Road, and stop it there.—Do this, and a region of country 70 miles across, which now sends its products and receives its return freight over the Virginia and Tennessee Road, would trade with Wilmington, and Fayetteville and Newbern, and our own State Roads would get the carrying. It is argued that we must have the plaster and lime from Virginia. True. This proposed road stops near Virginia, and plaster sufficient may be brought over turnpikes to the terminus. It will of necessity pass near Germanton, where there is plenty of the best of lime. The reason why I name Mt. Airy as the most destrable terminus, is because a great many different roads, crossing different gaps in the Blue Ridge, converge at or near that place. It is near the Virginia line, the nearest town you can get to, not to tap the State. It is surrounded by a rich, beautiful and healthy country, containing every facility for manufacturing, particularly splendid waterfalls. There is a White Sulphur Spring near there, equal to any in the world.—Mt. Airy already gets the trade of a considerable portion of Virginia, (owing to the happy convergence of the roads) the benefit of which, together with that of North Carolina, as I said before, is received by Virginia. I have hastily given a few points, hoping the matter, and not the manner may receive attention.

We never hear of a tariff without thinking of an incident that once occurred in North Carolina. A wag, who was a little "tight" withal, undertook, on tax gathering day in a certain county some years ago, to explain to a gazing crowd what the tariff was; and this was the explanation: "You think, no doubt, fellow-citizens, that this tariff, about which the papers are making such a fuss, is some big thing, but it ain't so. I have seen it, and I tell you it is a d—d little thing about so long, [measuring on his arm) and no bigger than a flying squirrel."—This gave perfect satisfaction as coming from one who had "seen it," and the crowd adjourned to take a drink, expressing their contempt for so small an affair. In those good old times the poor did not realize the "size" of the tariff in the enormous prices of the necessaries of life—but if the present tariff passes, they will see it and come to the conclusion that it is a very gigantic animal.—*Wilmington Journal.*

Our Friday Morning Dispatches.

Congress.

WASHINGTON, Feb. 7.

Mr. J. M. Ashley rose to a personal explanation regarding some newspaper correspondence, in which he took occasion to denounce the President; but denied complicity with Gen'l Butler, or any intention of stabbing General Grant in the back.

HOUSE.—The retrenchment Committee reported favorably to the official conduct of Mr. Van Dyke assistant Treasurer at New York.

The Reconstruction Committee's bill was taken up.

Mr. Stevens had not made up his mind beyond desiring to vote as early as possible.—And would not agree to postpone the vote till Monday.

Mr. LeBlond, said the bill struck down civil government in the South, ignored State lines and broke down the Judiciary.

Mr. Raymond proposed in view of its importance to allow twenty minutes.

Messrs. Stevens and Brandage made characteristic speeches in favor of the bill. The latter says the bill commences where Grant left off two years ago. He saw, promise that the sword of the Republic was about to be again unsheathed.

LeBlond and Finch opposed, and Pike favored. Farmsworth followed on the same side.

Mr. Rogers spoke an hour in opposition. He said rather than see military government established in this country, he for one, would use the power the Almighty gave him in resisting the invasion of his liberties. Mr. Thayer interrupted Rogers about its costing his neck. Mr. Rogers continued, that if the South had the blood of Washington, Jefferson, Madison, the sages and heroes of the revolution, they would protest, as their fathers had protested by their blood, against the despotism of King George. He hoped the President of the United States would resist, and use the powers the Constitution gave him, to compel traitors to obey the laws. If Andrew Johnson would submit to see the country destroyed, his name would go down with ignominy to posterity, as a coward and a traitor.

Mr. Bingham spoke very briefly, placing himself squarely in opposition to the measure, when the House took recess till 7 o'clock.

In the Senate, the Clerk read a dispatch from Nashville announcing universal suffrage in Tennessee.

The Judiciary Committee reported bills enrolling and calling out the militia, and preventing corporeal punishment.

Flour, a shade easier. Wheat dull and drooping. Cotton quiet, middling uplands 33.

LIVERPOOL, Feb. 8.

The broker's circular reports the total sales of cotton for the week ending last evening, at 43,-000 bales. The market had a downward tendency, and middling uplands have declined fully ¼d during the week. The market to-day is unchanged, with a prospective day's sale of about 7,000 bales, middling uplands 14½d.

Washington Matters.

WASHINGTON, Feb. 8.

The Ways and Means Committee will favor the exemption of incomes, under a thousand dollars. Over that amount five per cent.

Speculations regarding the fate of Stevens' bill, say that it cannot reach the Senate before Monday, where it will be detained as long as its opponents have wind to speak against it, there being no Senate machinery curtailing speeches. If kept from reaching the President till after the 24th, it will die with the adjournment.

PERUVIAN GUANO SUBSTITUTE!
BAUGH'S
RAW BONE: SUPER-PHOSPHATE OF LIME.

Manufactured under the formula originated in 1854 and patented by
BAUGH & SONS,
SOLE PROPRIETORS, AT THE
Dylaware River Chemical Works,
PHILADELPHIA, U. S. A.

This old established MANURE is manufactured from Bones that have not been burned or steamed, and it contains all their original organic matter. It is active in its operation, and is a fertilizer of great durability. It does not exhaust the soil like Peruvian Guano, but on the contrary permanently improves it.

Previous to 1861 it was introduced into the Southern States to considerable extent, and again in 1865, where it has been used with remarkable success upon

Cotton, Corn, Tobacco, and all Crops.

A trial will convince any planter of its merits.—Pamphlets containing well-known Southern evidence furnished upon application to New York or Philadelphia offices.

Sold by Dealers in all the principal cities and towns throughout the United States and British Provinces.

AYER'S AGUE CURE,

For the speedy and certain Cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines—that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by J. C. AYER & CO., Lowell, Mass., and sold by
Williams & Haywood, P. F. Pescud, Raleigh, N. C., and Dealers generally.

LIFE INSURANCE.

MANY insure their lives because they see the folly of neglecting to do so. Many who do not insure admit that it is folly to insure. Which is right? If those who do not insure can cite instances of the harm done by a policy of life Insurance, if they can point out men who have lost $5,000 to $ 50,000 by Life Insurance, then upon proof of same, we must believe them. Hundreds of instances can readily be shown where parties have been benefitted to this extent.—In North Carolina there are some 5 widows and Children ready to testify to the good resulting from a life Insurance on their only earthly dependence.

The "Ætna Life Co., in closing $29,000 the past year has relieved and now with over $4,000,000 of assets—offers sure protection to all those who will avail themselves of her liberal terms, by calling on

GEN. N. B. PEARCE, Pres't.

S. L. TRIPPE, Sec'y.

Having been appointed agent for the above Company, I respectfully call the attention of the citizens of this section of North Carolina, to the fact that this is a Southern Company with an authorized Capital of $ 500,000. it's business is ably conducted, by influential, reliable and wealthy citizens of Tennessee.

It has the finest references, and has always been exceedingly prompt in its payments, as can be shown by its records, being sustained by wealthy gentlemen.

It takes both Life and Fire risks on terms as low as any Eastern Company.

This Company is just being introduced into its sister State and I hope it will be well patronized.

Let us support and encourage each other and keep all our money at home.

No one is obliged now to go North to get himself or his property insured, as he can be accommodated here by a company of greatest reliability.

HILLSBORO' MILITARY ACADEMY.

THIS well known and popular institution is once more in successful operation, and is prepared for the reception of Cadets at any time.—It is under the direction of

GEN. R. E. COLSTON,

a graduate, and for fifteen years, (up to the commencement of the war) a

Professor of the Virginia
MILITARY INSTITUTE,

and a colleague of

STONEWALL JACKSON.

The course of the Institution is that of the Virginia Military Institute, and is such as to make the Academy a great

POLYTECHNIC SCHOOL.

A school of theoretical and applied science, in which Languages and Literature also receive a due share of attention. The discipline and instructions are on a

Complete Military Basis.

The Faculty is for the present organized as follows:

Superintendent and Professor of Military History, Strategy and Political Economy, and instructor of Infantry and Cavalry tactics, GEN. R. E. COLSTON, late Professor of French, and of Military History, Strategy and Political Economy at the Virginia Military Institute, and late Brig. General C. S. A.

Until the appointment of additional Professors, Gen. Colston takes charge of the Department of French and English studies and Belles Lettres.

Professor of Natural and Experimental Philosophy, Ordnance, Gunnery and instructor of Artillery tactics, Major D. TRUEHEART, Graduate of the Virginia Military Institute in 1850—afterwards Assistant Professor of the Va. Military Institute—attached to the United States Coast Survey—late Major and Chief of Artillery in the C. S. Army.

Professor of Mathematics, Civil and Military Engineering, Architecture, Topographical and Industrial Drawing, and Assistant Instructor of Infantry tactics, Maj. W. A. OBENCHAIN, "first distinguished Graduate," of his Class in the Virginia Military Institute, and for efficient and meritorious services during the war, promoted Captain of Engineers in the late C. S. Army.

Professor of Chemistry, Agricultural Chemistry, Geology and Mineralogy, Col. LEWELLYN HOLTON, "Distinguished graduate" of West Point Military Academy, and late Chief of Artillery to Hardee's Corps.

Professor of Latin, French, Ethics and Belles Lettres, to be appointed shortly.

Surgeons Drs. E. & W. STRUDWICK.

New appointments will be made, and the Chairs now filled will be subdivided as soon as the number of Cadets makes it desirable.

Applicants for Professorships must be gentlemen of scientific and Military education, who have served in the field

Candidates for admission as Cadets are advised to come without delay. Until the 1st of February next, all those Cadets present at the Academy, will be pushed forward in their studies irrespective of classes, so as to enable them, at that time, to enter the most advanced classes for which they may be found qualified.

By coming at once they may gain an entire year in the term of their education.

REMARKS.

1. The location of this College is in one of the most pleasant and cultivated towns in North Carolina, long celebrated for its healthfulness.

2. The Principals assure the public that no pains will be spared to render the institution all that parents and guardians could desire it to be—a suitable place for the education of their daughters and wards.

3. In all of its appointments they intend to make it rank with the foremost colleges of our land. They themselves are not novices in this department of labor, but have had ample experience in teaching, and in conducting such enterprises.

4. Pupils will be allowed to attend such places of worship on Sabbath as their parents or guardians may prescribe. One of the teachers will always accompany young ladies to the house of worship.

5. Debts cannot be contracted by the pupils without permission from parents or guardians.

6. Every sleeping room will be supplied with fuel and be carpeted.

7. Pupils must furnish their own towels, and one pair of sheets each, and have their clothing well marked.

Shipping and Commission Merchants,

171 PEARL STREET, NEW YORK.

We solicit consignments of Cotton, Naval Stores, Sheetings, Yarns, Tobacco, and other Southern Products, to the sale of which our prompt personal attention will be given. We will make liberal advances upon receipt of Invoice and Bill of Lading. All Merchandise and Produce shipped to us for sale are insured from point of shipment, with or without advice. Invoices should always accompany each shipment.

Both of us having had over twenty years' experience in business in the South, and our J. L. HATHAWAY three years in New York, we feel confident we can secure full prices for our friends who will favor us with their consignments.

1867. **"THE WORLD"** 1867.

THE ATTENTION OF THE PUBLIC IS INVITED to the claims of "THE WORLD" as one of the leading public journals of the country. It is the chief organ of the Democratic Party of the United States, and the foremost advocate of the immediate restoration of the Union. Its highest merit consists in its character as

An enterprising and Trustworthy Newspaper.

The next year bids fair to be a more critical one in the history of our free institutions, than even any of the eventful ones that have preceded it. The first requisite for an intelligent judgment of public affairs is a full and authentic account of facts as they transpire. These THE WORLD always aims to give with conscientious accuracy, and with equal fullness and fidelity, whether they make for or against its own views of public policy. Prompt activity in spreading before its readers every kind of news in which any part of the public takes an interest, is the first duty of a newspaper, and the facilities of THE WORLD for discharging this obligation are unsurpassed by those of any journal in the United States. Whatever else it may fail in, it certainly will not fail to furnish the news, now to supply it with such promptitude, spirit, freshness, abundance, variety, accuracy, and candor, that no class of readers can miss anything of interest which they wish to find. THE WORLD will publish documents and arguments prepared by political foes just as freely as those prepared by political friends; making its own comments on them, of course, but never suppressing or garbling them because they are calculated to damage its own party. Adverse arguments which it cannot refute, it is content to leave to make their full impression. THE WORLD adopts this rule because it believes no other is honest; because it conceives that its first duty to its readers is to keep them thoroughly informed on every passing subject of importance.
